## WELCOME

# What is Airads Virtual Campus?

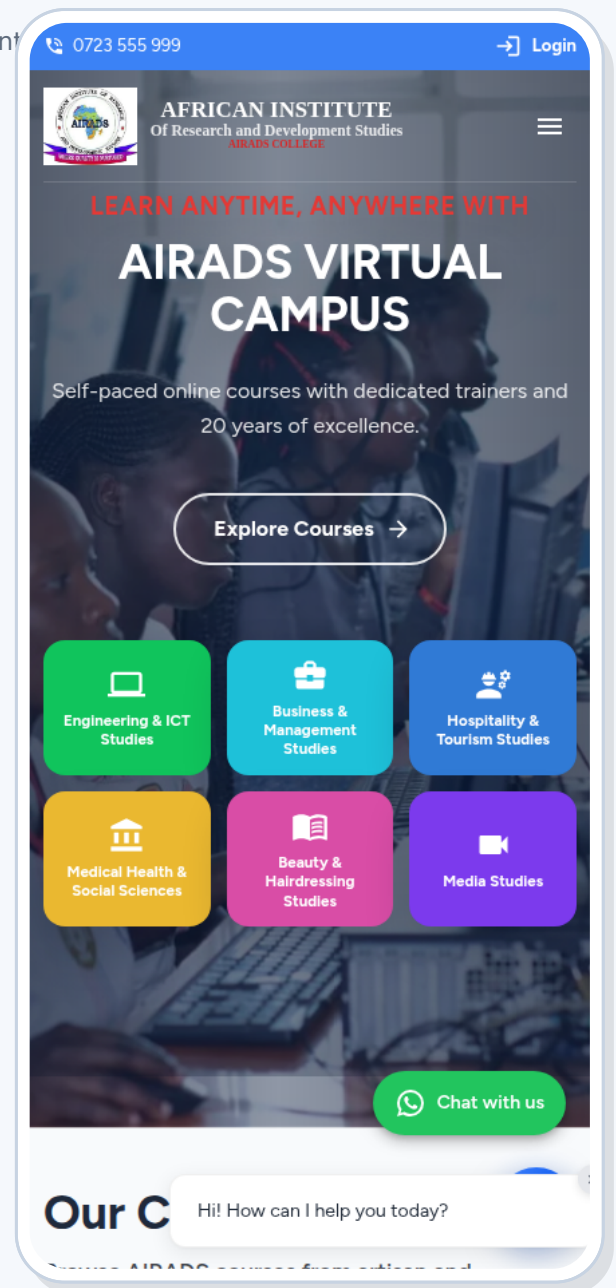

Your online learning space for lessons, live support, assignments

## Before you begin

- 1 Use a smartphone, tablet or computer connected to the internet.
- 2 Open an up-to-date browser such as Chrome, Edge, Firefox or Safari.
- 3 Keep access to your registered email for password recovery.
- 4 Choose a quiet study space and charge your device before live sessions.

### GOOD TO KNOW

The Virtual Campus works on mobile. Turn your phone sideways only when a table or learning activity needs more room.

## STEP 1

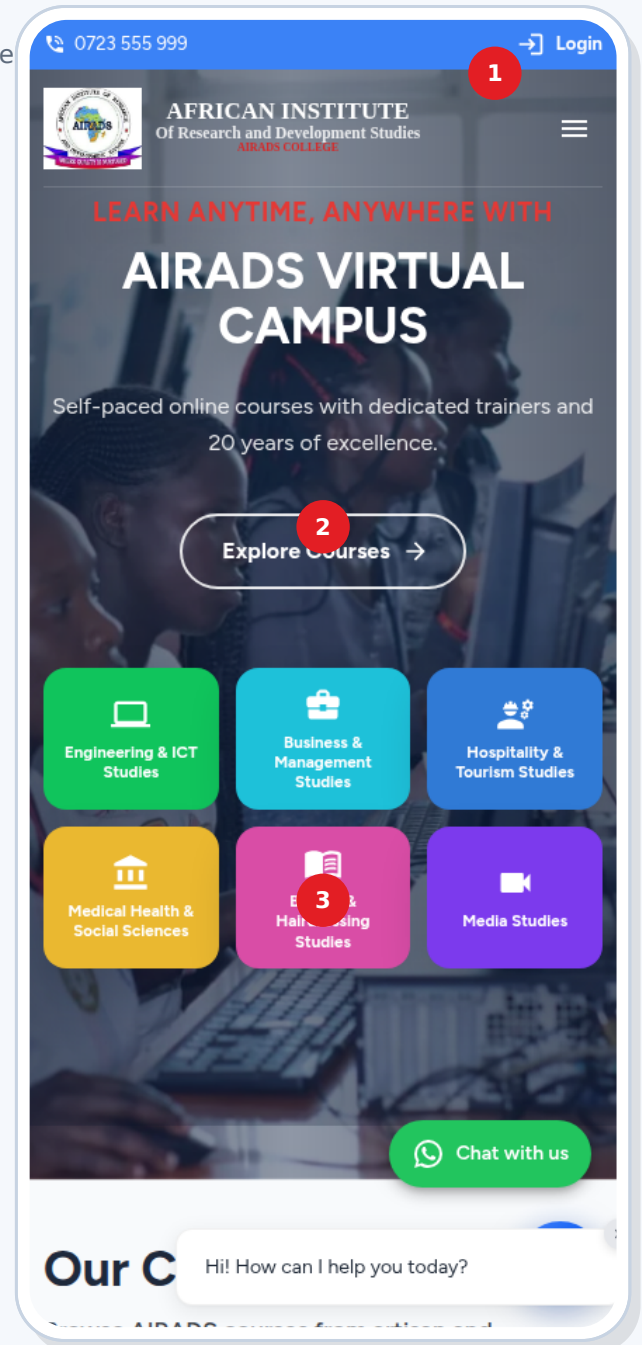

# Find a course and enrol

Start at the Airads Virtual Campus and choose a programme

- 1 Go to [virtual.airads.ac.ke](https://virtual.airads.ac.ke).
- 2 Tap Explore Courses or choose a course category.
- 3 Open a course to review the description, duration and requirements.
- 4 Select Enrol Now or Apply Now, then sign in or create an account when prompted.

**TIP**

If Airads enrolled you directly, skip this page and open Enrolled Courses after signing in.

SIGN IN

FIND COURSE

## STEP 2

# Sign in or reset your password

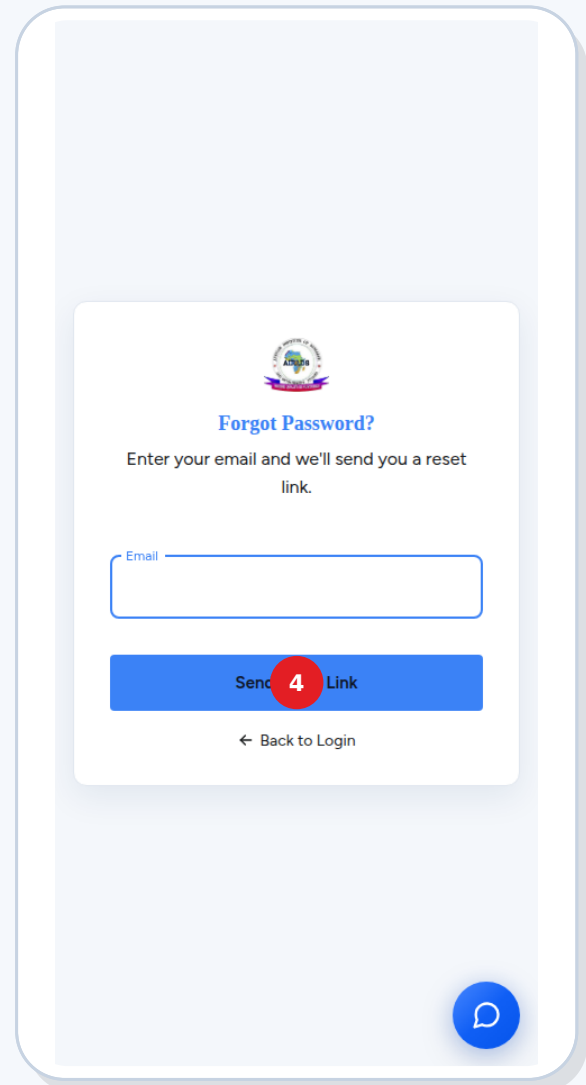

Use the email registered with Airads. Google sign-in may also be available.

The sign in screen features the AIRADS logo at the top. Below it, a welcome message says "Welcome back! Please sign in to continue." There are two main options: "Continue with Google" (with a Google logo) and "or sign in with email". The email sign-in section has an "Email" input field (marked with a red circle 1), a "Password" input field (marked with a red circle 2), a "Remember me" checkbox, and a "Forgot password?" link. A blue "Sign In" button is at the bottom. A red circle 3 is placed below the button, pointing to a chatbot bubble at the bottom of the screen that says "Hi! How can I help you today?".

## Sign in

- 1 Enter your email.
- 2 Enter your password.
- 3 Tap Sign In.

The forgot password screen features the AIRADS logo at the top. Below it, the heading "Forgot Password?" is followed by the instruction "Enter your email and we'll send you a reset link." There is an "Email" input field. Below it is a blue button labeled "Send Link" (marked with a red circle 4). At the bottom, there is a link that says "← Back to Login". A red circle 3 is placed below the button, pointing to a chatbot bubble at the bottom of the screen that says "Hi! How can I help you today?".

## Forgot your password?

- 1 Tap Forgot password?
- 2 Enter your email and select Send Reset Link.
- 3 Open the email and follow the reset instructions.

## STEP 3

# Understand your dashboard

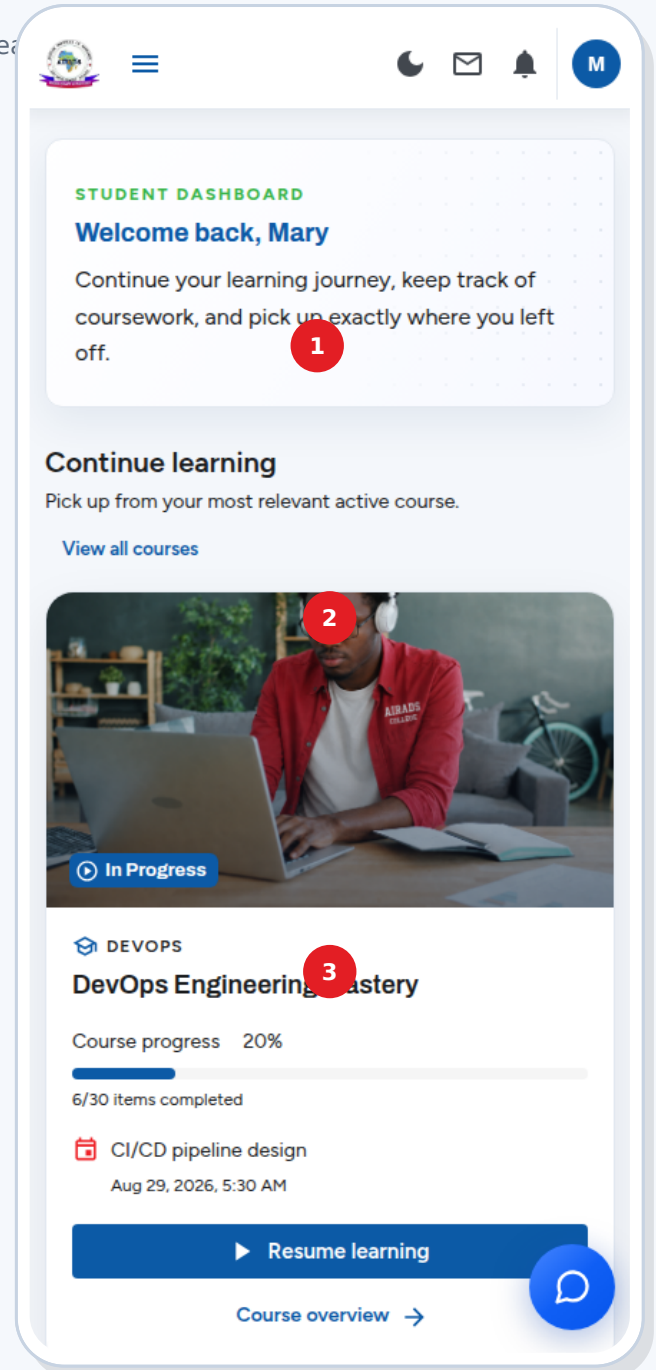

This is your learning home. It highlights the next course, deadlines, and progress.

## Look for these areas

- 1 Continue learning opens the course that needs your attention first.
- 2 Summary cards show enrolled courses, assignments, completions and quizzes.
- 3 Upcoming deadlines and progress help you plan your next study session.

### HABIT

Check your dashboard whenever you sign in. It is the quickest way to see what is due next.

## STEP 4

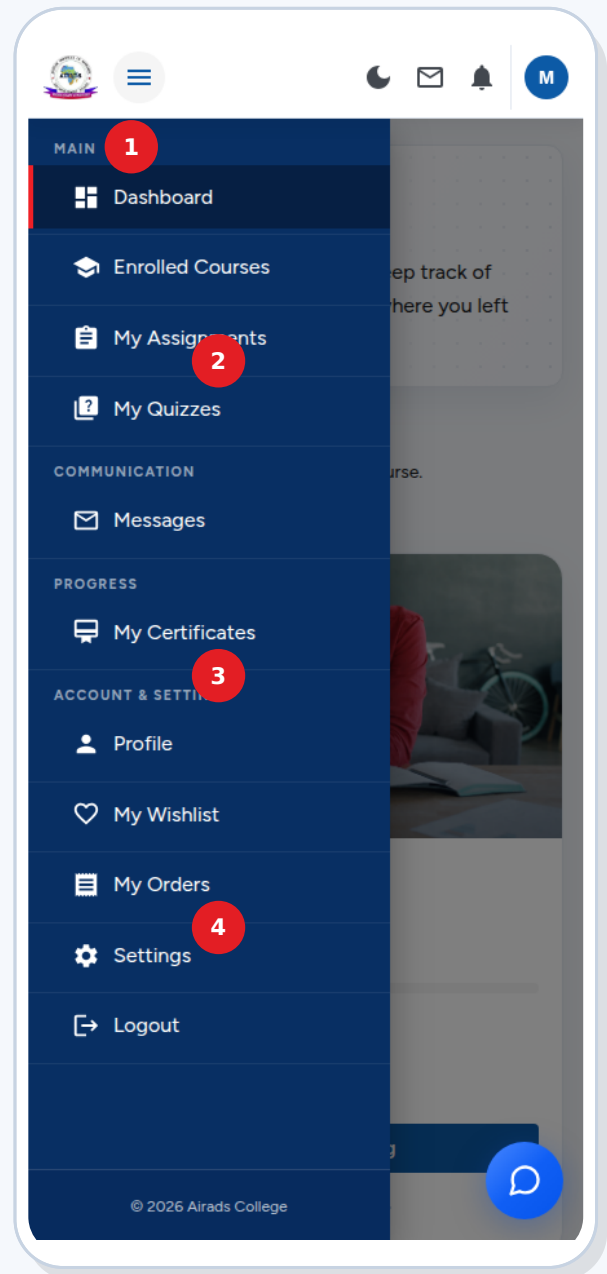

# Use the student menu

Tap the menu icon at the top-left to reach every part of your student account.

- 1 Dashboard: return to your learning summary.
- 2 Enrolled Courses: open your courses and progress.
- 3 My Assignments and My Quizzes: review coursework and results.
- 4 Messages, My Certificates and Profile: communicate, download awards and update your details.

**PRIVACY**

Always select Logout when using a shared phone or computer.

## STEP 5

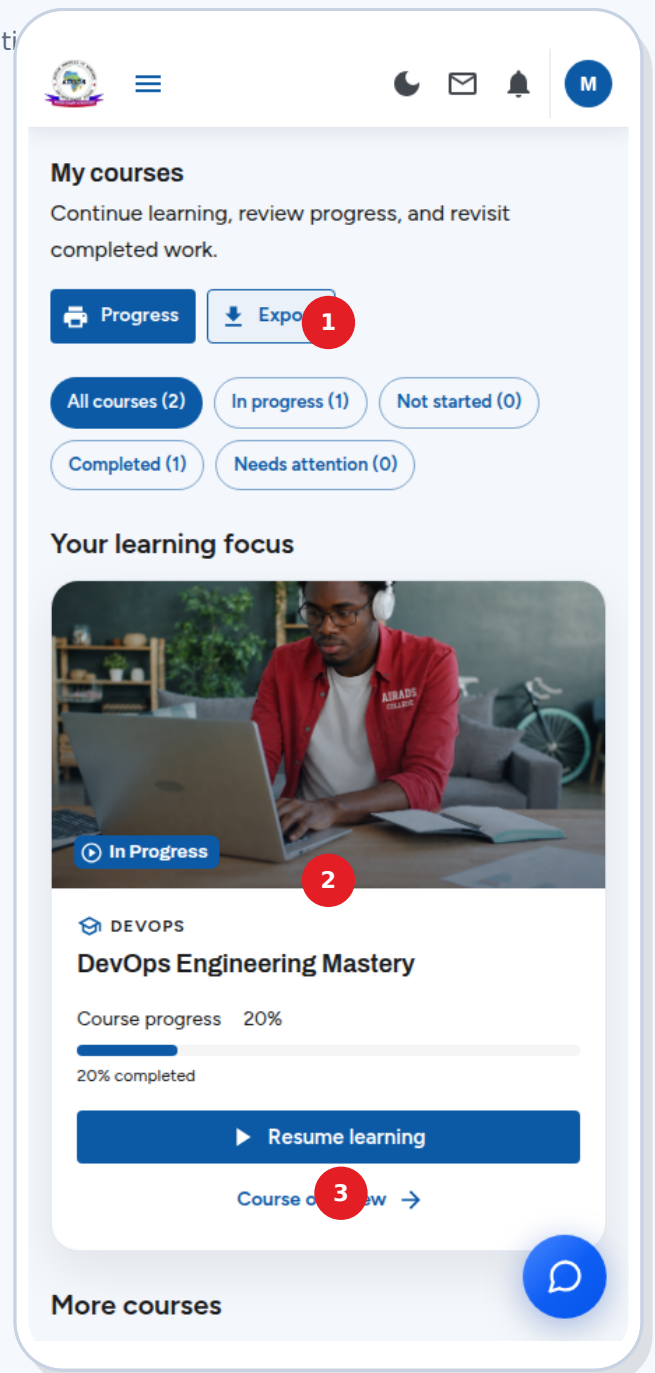

# Open or resume a course

Your learning focus appears first, followed by your other activities.

- 1 Open the menu and tap Enrolled Courses.
- 2 Use the status filters to find in-progress or completed courses.
- 3 Tap Resume learning to continue, or Course overview to review the full course plan.

## PROGRESS

The percentage shows how much required learning you have completed. It updates as activities are recorded.

CERTIFICATE

## STEP 6

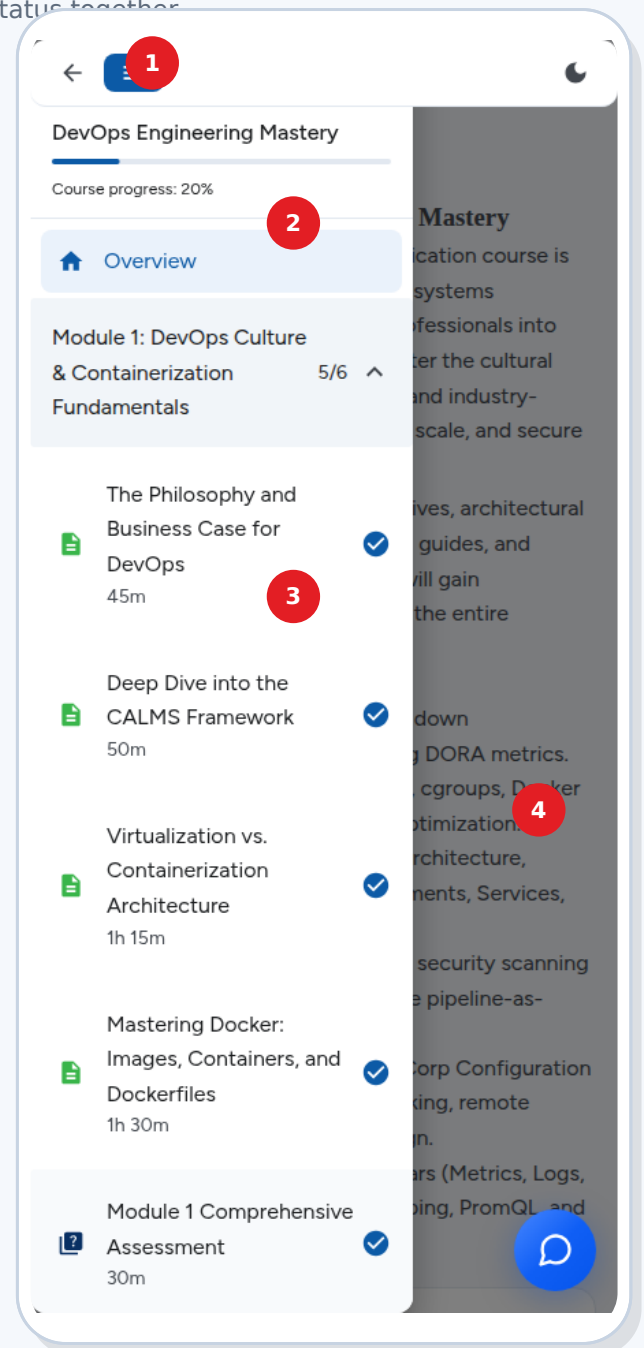

# Navigate the virtual classroom

The classroom keeps the curriculum, progress and lesson status together.

- 1 Tap the blue menu button to open or close the curriculum.
- 2 The progress bar shows your overall course completion.
- 3 Expand a unit to view its lessons and assessments.
- 4 A check mark means the activity has been completed. Locked items open after required earlier work is finished.

**REMEMBER**

Use the curriculum to see the full journey. Use Next and Previous when studying one lesson at a time.

## STEP 7

# Study a lesson and record progress

Read, watch or complete the required activity before moving to the next lesson.

## Complete the lesson

- 1 Work through the lesson from top to bottom.
- 2 Complete any required video, document or activity.
- 3 Tap Mark Complete when it becomes available.
- 4 Tap Next to continue. Completed activities show a check mark.

## STEP 8

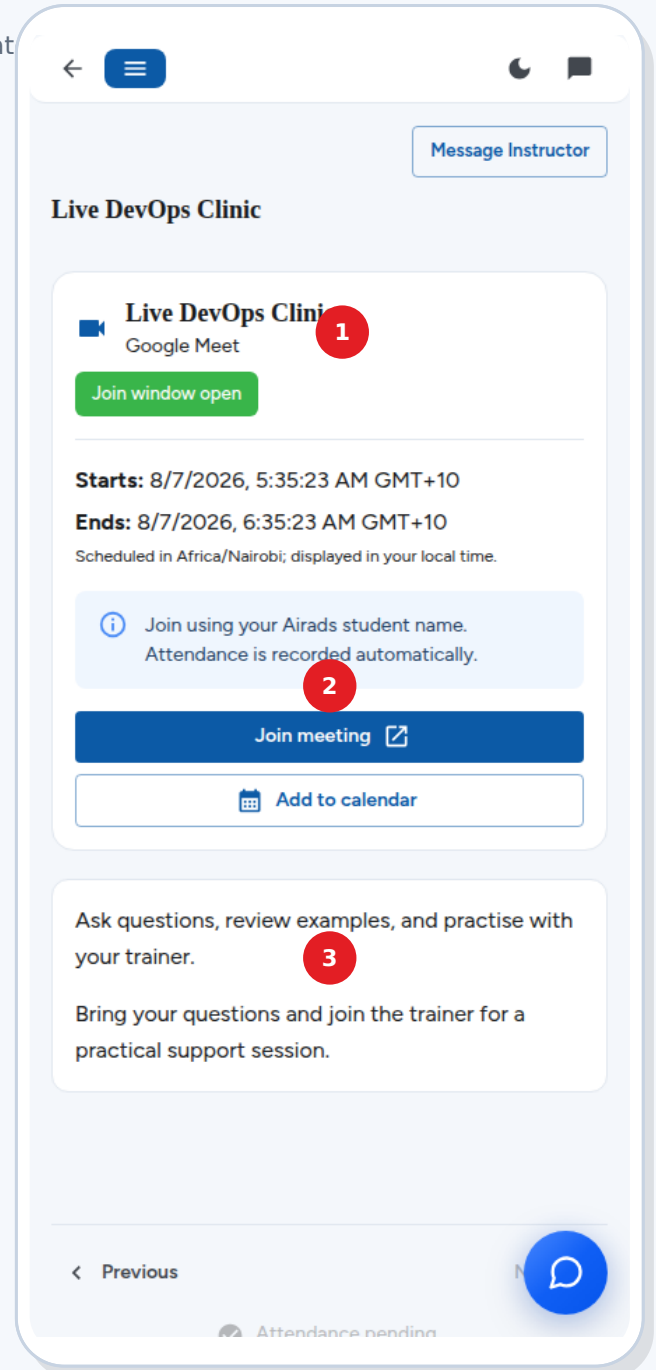

# Join a scheduled live class

When a course includes a live session, Airads shows the date and time of the session.

- 1 Open the scheduled lesson from the curriculum or course overview.
- 2 Check the start time and read the attendance instructions.
- 3 Tap Add to calendar so you do not miss the session.
- 4 When the join window opens, tap Join meeting. Use your Airads student name.

**IMPORTANT**

Join a few minutes early. Keep the session open until the end when attendance is required.

## STEP 9

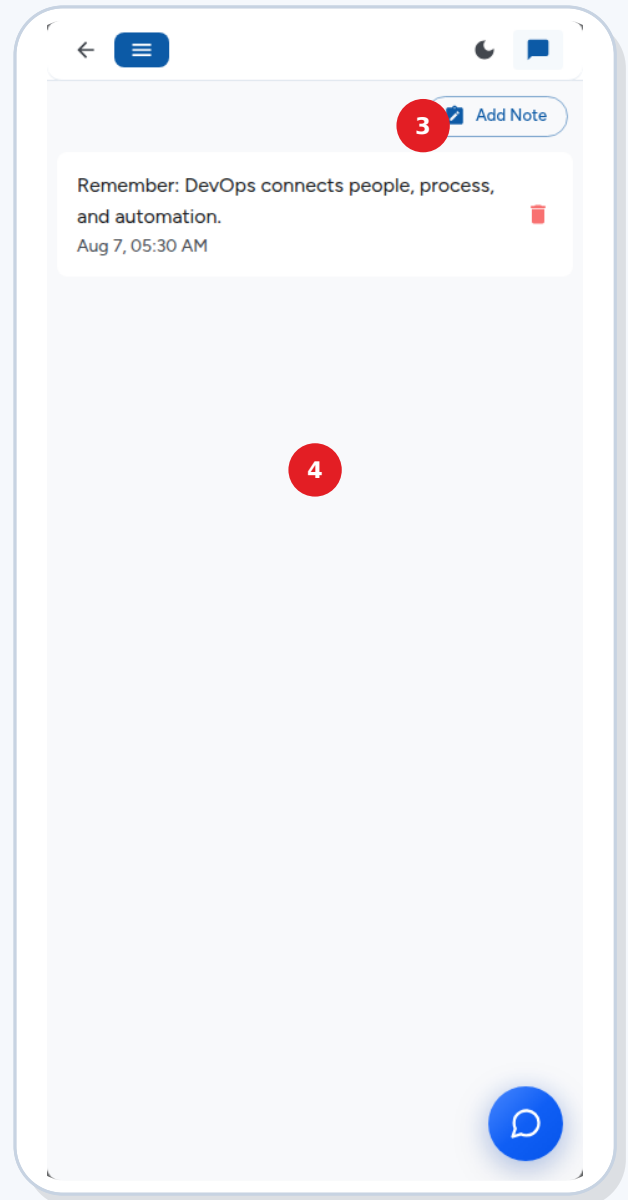

# Join discussions and save notes

Use Discussions for class conversation. Use Notes for your private study reminders.

## Discuss

Open the speech-bubble button, choose Discussions, tap Comment or Reply, write clearly and send.

## Take notes

Choose Notes, tap Add note, write your reminder and save. Notes are attached to the current lesson.

## BE RESPECTFUL

Keep discussion messages relevant, polite and free of private information.

## STEP 10

# Complete and submit an assignment

Read the question, instructions, due date and attempt rules before submitting your assignment.

- 1 Open My Assignments or select the assignment inside your course.
- 2 Check the due date, question, instructions and attached materials.
- 3 Enter your response or attach the required file, audio or video.
- 4 Review your work, then tap Submit Assignment. Confirm that the attempt status changes to Submitted.

**IMPORTANT**

Submit before the deadline. Late work may receive a penalty, and submitted work can count as an official attempt.

## STEP 11

# Take a quiz carefully

Check the time limit and attempt count before you start. Answer the questions carefully.

- 1 Open the quiz from the curriculum.
- 2 Read the instructions, questions, time limit and available attempts.
- 3 Select an answer, then use Next or the question numbers to move through the quiz.
- 4 Review all answers before selecting Submit. Wait for the result screen before closing the browser.

**DO NOT REFRESH**

Avoid refreshing or closing the page while a timed quiz is in progress. Your quiz may submit automatically when time ends.

## Module 2 Comprehensive Assessment

Module 2 Comprehensive Assessment

0 of 5 answered Attempt #1

Question 1 of 5 0 answered

1 2 3 4 5

Question 1

10 pts

Which Kubernetes Control Plane component is the **ONLY** one that communicates directly with the etcd database?

☐ A. kube-scheduler

☐ B. kubelet

☐ C. kube-apiserver

☐ D. kube-controller-manager

## STEP 12

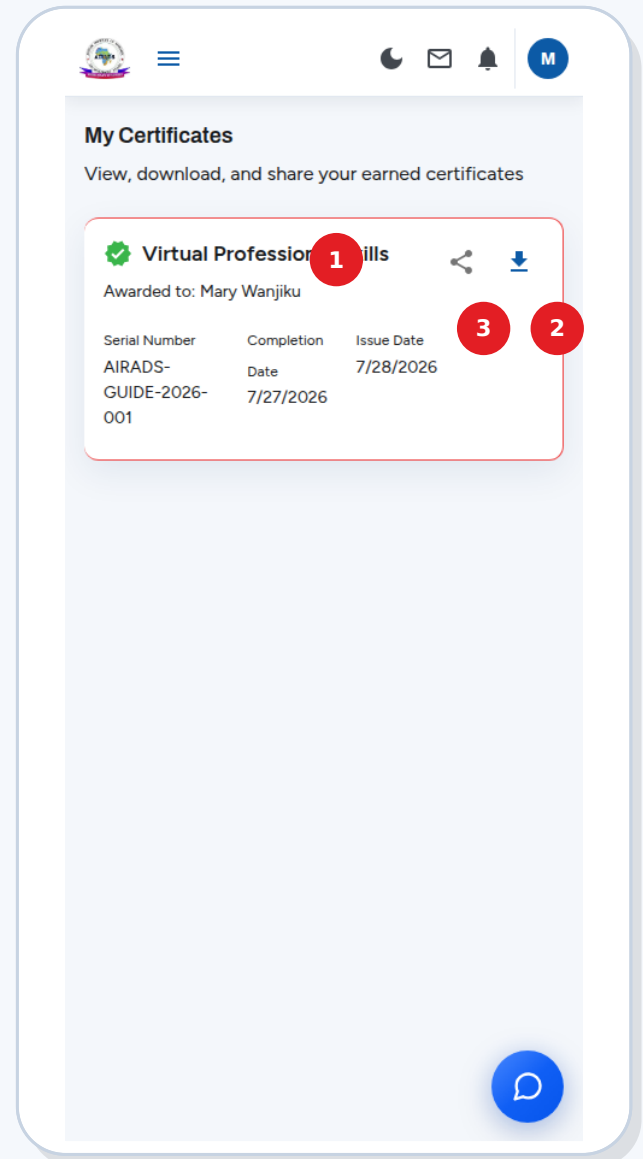

# Download your certificate

When all course requirements are met and the certificate is released, it appears under My Certificates.

- 1 Open the student menu and tap My Certificates.
- 2 Select the download icon to save the PDF certificate.
- 3 Use the share icon to copy or send the certificate verification link.

## PENDING CERTIFICATE

If your course is complete but the certificate is pending, wait for Airads approval or contact support.

## Need help?

Before contacting support, note the page, course and message shown on screen.
